

LIST OF TABLES

1.1.1	Untreated dental caries prevalence among children (aged 2-4 and 6-8 years), adolescents (aged 12-15 years), and adults (aged 35-44 years) by selected demographic characteristics.	171
1.2.1	Decayed, missing, and filled surfaces among children (aged 6-8 years), adolescents (aged 12-15 years), and adults (aged 35-44 years) by selected demographic characteristics.	172
1.2.2	Decayed and filled surfaces among children (aged 2-4 and 6-8 years)	172
1.3.1	Trends in primary dentition untreated dental caries prevalence among children (aged 2-4 and 6-8 years) and trends in permanent dentition untreated dental caries among children (aged 6-8 years), adolescents (aged 12-15 years) and adults (aged 35-44 years) by selected demographic characteristics	173
2.1.1	Children and adolescents with dental sealants by age group and selected demographic characteristics.	174
2.2.1	Percentage of population receiving fluoridated water through public water systems by state—United States, 2000.	175
3.1.1	Prevalence of gingivitis among adults aged 20 and older by selected demographic characteristics.	176
3.2.1	Destructive periodontal disease among adults aged 20 and older by selected demographic characteristics.	177
4.1.1	Adults aged 18 and older with full dentition by selected demographic characteristics	178
4.2.1	Adults aged 20 and older with 21 or more teeth by selected demographic characteristics	179
4.2.2	Adults aged 50 and older with 21 or more teeth by selected demographic characteristics	180
4.3.1	Edentulous adults 65 to 74 years old by selected demographic characteristics	181
4.3.2	Edentulous adults 45 to 64 years old by selected demographic characteristics	182
4.3.3	Edentulous adults 25 to 44 years old by selected demographic characteristics	183
4.4.1	Edentulous adults who had and used their dentures.	184
5.1.1	Adults aged 18 and older with a self-assessed oral health status of good or better.	185

LIST OF TABLES

6.1.1	Adults aged 18 and older with oral infections and benign lesions	186
7.1.1	Visits to a dentist during the past year among those aged 2 years and older . . .	187
7.2.1	Percentage of nursing home residents who received dental care during the last 30 days: United States, 1997	49
7.3.1	Percentage of children aged 18 years and younger who received preventive dental services during 1997 by type of service	188
7.3.2A	Percentage of children aged 18 years and younger living below the federal poverty level during 1997 by extent of dental services received	189
7.3.2B	Percentage of children aged 18 years and younger living at or above the federal poverty level during 1997 by extent of dental services received	190
7.4.1	States, districts, and schools with oral health-related services and policies at school-based health centers, 2000	190
7.6.1	Full-time equivalent dental care employees and dental directors by state, 2000	191
7.7.1	Adults with a usual source of dental care, 1971-1975	192
7.8.1	Percent of population who received preventive dental services during 1997 by type of service	193
7.9.1	Adults who did not visit a dentist during the past 12 months due to cost by selected demographic characteristics	194
8.0.1	Federal, nationally representative surveillance systems with an oral health component	71
8.0.2	State-based health surveillance systems with an oral health component	72
9.1.1	Prevalence of cleft lip and/or palate and other congenital malformations per 100,000 live births	195
10.1.1	Adults experiencing chronic orofacial pain more than once during the past 6 months	196
10.2.1	Adults experiencing acute orofacial pain during the past 6 months	197
11.1.1	Incidence of craniofacial injuries among emergency room visits by selected demographic characteristics	198
12.1.1	School children aged 12-17 years with smokeless tobacco lesions by selected demographic characteristics	199

LIST OF TABLES

12.1.2	Smokeless tobacco lesions among adults aged 18 and older by selected demographic characteristics.	200
12.2.1	High school students who used tobacco by selected demographic characteristics	201
12.2.2	Trends in percentage of adults who are current cigarette smokers	202
13.1.1	Incidence rates for oral and pharyngeal cancers by stage and selected demographic characteristics.	203
13.1.2	Incidence rates for oral and pharyngeal cancers for all stages by race	204
13.1.3	Incidence rates for oral and pharyngeal cancers by stage at diagnosis	205
13.2.1	Adults aged 40 years and older reporting having had an oral and pharyngeal cancer examination	206
13.3.1	Oral and pharyngeal cancer deaths (per 100,000)	206
13.4.1	Incidence rates for oral and pharyngeal cancers by site	207
13.4.2	Incidence rates for oral and pharyngeal cancers by site and race	207
13.4.3	Incidence rates for oral and pharyngeal cancers by site and stage at diagnosis	208
13.4.4	Incidence rates for oral and pharyngeal cancers by site and gender	208
14.1.1	Proportion of subjects reporting dry mouth symptoms often or all the time by age	117
14.1.2	Percentage distribution of the prevalence of symptoms of dry mouth among men and women of different age groups (20-80 years), and number of responders in each age group in the whole population sample and separately for the nonmedicated and the medicated subgroup	117
15.1.1	Percentage of adults aged 30 and older with diabetes by selected demographic characteristics.	209
15.2.1	Percentage of dentate adults aged 50 and older reporting a dental visit in the last year by diabetic status	210
15.2.2	Percentage of edentulous adults aged 50 and older reporting a dental visit in the last year by diabetes status	211
15.3.1	Frequency of oral lesions by gender.	126
15.4.1	Prevalence of osteoporosis among adults aged 45 and older	212

LIST OF TABLES

16.1.1	Distribution of U.S. adult population with dental and/or medical insurance by selected demographic characteristics, 1997	213
16.2.1	Annual per capita costs for dental services by year and source of payment, 1960-1999	214
16.2.2	Mean annual dental expense among persons with dental expenses by source of payment and population characteristics, 1977.....	215
16.2.3	Mean annual dental expense by source of payment, 1987.....	216
16.2.4	Mean annual dental expense by source of payment, 1996.....	217
16.3.1	Trends in the percent of total annual dental expense by source of payment, 1960-1999	217
16.3.2	Percent of total annual dental expense by source of payment, 1977.....	218
16.3.3	Percent of total annual dental expense by source of payment, 1987.....	219
16.3.4	Percent of total annual dental expense by source of payment, 1996.....	220
16.4.1	Percentage of the population underserved by a dental professional by state, September 2001	221
16.6.1	Racial/ethnic make-up of dentists in the United States (as summarized by the ADA between 1995 and 1997).....	151
16.7.1	Percent representation in the 1999 and 2000 U.S. dental school graduating class by selected characteristics.....	153
16.7.2	Plans following dental school graduation by race/ethnicity	154
17.1.1	Hours missed annually from work for personal dental visits and problems among the employed population	223
17.1.2	Time missed from work among those with time missed by selected occupations	224
17.1.3	Hours missed annually from school for personal dental visits and problems among the U.S. population 5-17 years old	224
